ABSTRACT

Information on the Higher Education Opportunity Programs (HEOP) at private colleges and universities in New York is provided. HEOP provides supportive services and financial aid to state residents attending private institutions in the state. The objective is to meet the special needs of students from disadvantaged backgrounds through such strategies as screening, testing, counseling, tutoring, teaching, and financial assistance. In general, students in opportunity programs are from a low income family and have a high potential for successful collegiate experience but have not acquired the skills required for college-level work. Before the students begin classes, the HEOP professional staff evaluates their academic strengths and weaknesses, and designs specific academic programs. Students can take credit and noncredit remedial/developmental courses. Information is provided on: eligibility for HEOP, economic criteria for participation, application, remedial and developmental courses, tutorial services, and counseling. The names, addresses, and phone numbers of New York State institutions offering HEOP programs are appended. (SW)

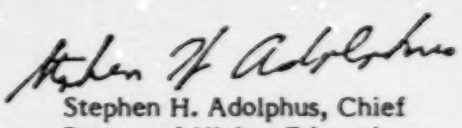
FOREWORD

We have developed this guide to inform you of the numerous opportunities at independent colleges and universities in New York State through the Higher Education Opportunity Program.

I urge you to take advantage of one of the many programs available. If you are not eligible for HEOP, there are many other federal, state and institutional programs of finanical aid, and some campus programs of academic support, for which you might well qualify. The local campus is your best source of information about these possibilities.

I appreciate your interest in furthering your education. I hope this guide and the program it describes can help you achieve your goals.



Stephen H. Adolphus, Chief
Bureau of Higher Education
Opportunity Programs

I.

INTRODUCTION

In 1966, the Governor and the Legislature approved a bill to provide equal access to higher education fo. the "educationally and economically disadvantaged" students in New York State. The program known as Search for Education, Elevation and Knowledge (SEEK) was begun at The City University of New York (CUNY). The College Discovery Program which was already in existence at community colleges in New York City was continued, and the State University of New York (SUNY) started the Educational Opportunity Program (EOP). In 1970, legislation established the Higher Education Opportunity Program (HEOP) at independent colleges and universities in New York State.

These programs are designed to meet the special needs of students from disadvantaged backgrounds. Among the strategies available to meet these needs are screening, testing, counseling, tutoring, teaching and financial assistance.

In general, students in opportunity programs are individuals from a low income family with high potential for successful collegiate experience but who have not acquired the verbal, mathematical, and other cognitive skills required for collegiate level work. Generally their grades fall in the bottom half of their high school graduating class. They are students who have not earned a Regents diploma, are assigned to a high school which has a poor record for developing students, or have been tracked or scheduled into a general, commercial or vocational high school program.

Students eligible for HEOP will generally rank low on such traditional measures of collegiate admissions as the SAT board scores, high school average class standing or Regents Scholarship examinations.

Opportunity programs are available for students living in urban and rural areas. They are available at the two- and four-year level, at public and independent colleges, and in every academic discipline and career field. Students are selected without regard to sex, ethnicity, race or religious background.

II.

HIGHER EDUCATION OPPORTUNITY PROGRAM

What is HEOP?

The Higher Education Opportunity Program (HEOP) provides supportive services and financial aid to New York State residents attending independent colleges and universities in New York State.

Who Is Eligible?

To be eligible for HEOP you must meet all of the following conditions. You must:

1. Have been a resident of New York State for one year preceding your term of entry into HEOP.

2. Be educationally disadvantaged. An educationally disadvantaged student is a student who otherwise would not be accepted under the institution's normal admissions standards at a matriculated status in a degree program for which application is made. At open admissions institutions, an educationally disadvantaged student must meet one of the following criteria:

   a. Possess a non-academic high school diploma (although requirements for an academic diploma may vary somewhat, the following high school unit accumulations are suggested as a guide: 4 years of English, 3 years of history, 2 years of math, 2 years of science, and 2 of a foreign language); or

   b. Possess a high school equivalency diploma; or

   c. Possess the equivalent of a GED; or

   d. Have no high school diploma.

3. Be economically disadvantaged. Guidelines for determining economic eligibility are on page 5.

4. Possess a high school diploma or a State approved equivalency diploma or its equivalent.

   The equivalent of a general equivalency diploma is defined as being one of the following: (A) an Armed Forces Equivalency Diploma, with a minimum score of 35 on each test section and a minimum composite score of 225; (B) a level of knowledge and academic ability equal to the level required for entrance to the educational opportunity program at the institution to which the individual seeks admission.

5. Have the potential and motivation for the successful completion of college.

6. Not be the recipient of a Regents Scholarship won in countywide competition or of a Regents Nursing Scholarship. However, honor recipients of Regents Scholarships won in local school competition are eligible for consideration.

7. (if transfer) Have been in an approved opportunity program.

How Do I Apply?

To apply for admission to a Higher Education Opportunity Program (HEOP), request an application from the institution that you are interested in attending. There are 71 HEOP programs throughout New York State, offering a wide variety of academic courses in major fields of study. Specific information can be obtained by writing to the HEOP program on that campus. A roster of HEOP programs is listed at the end of this section.

Please note: Many independent colleges require you to apply by April 1 of the year before you intend to begin. These dates vary at each campus. Please plan to apply as early as possible.

If I Am Accepted -- What Next?

Summer Program. Entering students usually are required to take part in a pre-freshman summer program. The summer program is designed to orient the student to college life, initiate a program of academic skills-building and acquaint the student with the services available through HEOP.

Supportive Services. During the academic year, supportive services take many forms:

Remedial and Developmental Courses

If you need additional academic preparation to prepare you for college-level work, HEOP can meet your academic needs. Before you begin your classes, the HEOP professional staff will evaluate your academic strengths and weaknesses, and design a specific academic program to help eliminate your academic deficiencies. You will have the opportunity to take credit and non-credit remedial/developmental courses. These courses provide instruction in basic skills, reading, writing, vocabulary, mathematics and other areas of study.

Tutorial Services

HEOP provides students with tutorial services to assist students with their academic courses. Tutorial services are conducted on a one-to-one basis or in groups depending on the needs of the individual students. Some tutors are competent upper-class HEOP students and some are professional tutors.

Counseling

Counseling services are provided by the HEOP staff on an individual or group basis to assist you with any problems which may interfere with your academic work. You will receive the following types of counseling:

Academic - The HEOP counselor will assist you in selecting your academic major and courses. You can take a reduced courseload during your first semester. You are also given an extra year of eligibility, if needed, to graduate.

Personal - Adjustment to college life often presents many new problems for HEOP students. Counseling helps you develop your self-confidence, identity, and a positive attitude about learning.

Career - Students are often undecided about what to do after graduation. The HEOP staff will assist you in making career choices. Career counseling will help you in selecting the necessary courses to prepare you for employment or postgraduate study.

Can I Afford To Attend College?

HEOP provides colleges with funds to help meet the cost of your education. You will also be eligible for other State, Federal and institutional financial aid awards. Students are required to apply for the State's Tuition Assistance Program (TAP) and the Federal Pell Grant (formerly BEOG).

The amount of financial aid and the application procedures vary from campus to campus. HEOP students are expected to contribute to the cost of their education from family savings or summer earnings. Specific information can be obtained by contacting the HEOP office or financial aid office at the college you are interested in attending.

For general questions about HEOP, please feel free to call or write to:

Economic Eligibility Criteria for Opportunity Programs

Family Income Scale for Purposes of Determining Eligibility for Supplemental Financial Assistance for First-time Students Enrolled in Opportunity Programs Beginning July 1, 1984.

(1) A student is economically disadvantaged if he/she is a member of a household supported by one member thereof with a total annual income which does not exceed the applicable amount set forth in the following table; or of a household supported by more than one worker thereof, or a household in which one worker is the sole support of a one-parent family, if the total annual income of such household does not exceed the applicable amount set forth by more than $2,000. For the purposes of this subdivision, the number of members of a household shall be determined by ascertaining the number of individuals living in the student's residence who are economically dependent on the income supporting the student.

For students first entering college after July 1, 1984.

Number of members in household (including head of household)	Total annual income in preceding calendar year
1	$ 7,000
2	9,200
3	11,500
4	14,200
5	16,700
6	19,400
7	22,000
8	24,200
9 or more	26,700 plus $2,000 for each family member in excess of 9

(2) A maximum of 15 percent of the students admitted to an HEOP program may come from families whose income exceeds the family scale when unusual and extenuating circumstances warrant. Documentation of these circumstances shall be kept on file by the institutions at which such students are enrolled, and shall be corroborated by a disinterested, reliable party.

Categories into which these exceptions may fall are limited to the following:

a) Serious mismanagement of the family income, with little accruing to the interest of the student.

b) A one-time fluctuation in family income, with a history of low income, due to such causes as insurance settlements and severance pay.

c) A household which includes relatives and others not claimed as tax deductions, such as grandparents, other relatives, dependents of children, and godchildren, where such persons clearly depend on the

income of the head(s) of the household for support. Income of such persons must be included in determining economic eligibility.

d) Families with long-term medical obligations such as maintenance of physically or mentally handicapped children.

e) Families which must maintain two households, one for the wage earner and one for the dependents.

(3) Reference to the family income scale need not be made if the student falls into one of the following categories and documentation is present:

a) The student's family is the recipient of payments through a New York State or county Department of Social Services;

b) The student is living with foster parents who do not provide support for college, and no monies are provided from the natural parents;

c) The student is a ward of the State or a county.
